

GOAL 7: Ensure Access to Affordable, Reliable, Sustainable and Modern Energy for All

Description

Energy is central to nearly every major challenge and opportunity the world faces today. Be it for jobs, security, climate change, food production or increasing incomes, access to energy for all is essential.

Sustainable energy is opportunity – it transforms lives, economies and the planet, ensuring universal access to modern energy services, improve efficiency and increase use of renewable sources.

Facts and Figures

- One in five people still lacks access to modern electricity

- 3 billion people rely on wood, coal, charcoal or animal waste for cooking and heating
- Energy is the dominant contributor to climate change, accounting for around 60 per cent of total global greenhouse gas emissions
- Reducing the carbon intensity of energy is a key

objective in long-term climate goals
